CERTIFIED PUBLIC ACCOUNTANT

## INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

Mayor and City Council  
City of Groesbeck, Texas

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Groesbeck, Texas as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City of Groesbeck, Texas' basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements, referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Groesbeck, Texas as of September 30, 2021, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and Schedule of Changes in Net Pension Liability and Related Ratios and Schedule of Contributions on pages 3-9, and 46-48, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated February 10, 2022 on our consideration of the City of Groesbeck, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Groesbeck, Texas' internal control over financial reporting and compliance.

Respectfully submitted,

Donald L. Allman, CPA, PC

Georgetown, Texas  
February 10, 2022

## MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Groesbeck's annual financial report presents our discussion and analysis of the City's financial performance during the year ended September 30, 2021. Please read it in conjunction with the City's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The City's total combined net position on financial statement exhibit A-1 was \$11,080,633 at September 30, 2021.
- During the year, the City's total net income was \$1,292,262. The City's proprietary fund reported net income of \$641,858 before transfers. The City's general fund reported a net income of \$650,404 before transfers.
- The general fund reported a governmental fund balance this year on financial statement exhibit A-3 of \$2,437,936. The general fund had a net position increase of \$1,049,679 on the governmental funds basis before transfers.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three – *management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are *government-wide financial statements* that provide both long-term and short-term information about the City's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the City's operations in more detail than the government-wide statements.
- The *governmental funds* statements tell how general government services were financed in the *short term* as well as what remains for future spending.
- *Fiduciary fund* statements provide the information about the financial relationships in which the City acts solely as a *trustee or agent* for the benefit of others, to which the resources in question belong.
- *Business-type* activities fund statements provide information about the for-profit activities and services.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

## Government-Wide Statements

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. The two government-wide statements report the City's net position and how they have changed. Net position – the difference between the City's assets and deferred outflows of resources less liabilities and deferred inflows of resources – is one way to measure the city's financial health or position.

- Over time, increases or decreases in the City's net position is an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City, one needs to consider additional nonfinancial factors such as changes in the City's tax base.

The government-wide financial statements of the City include the *Governmental Activities* and *Business-type Activities*. Most of the City's basic services are included as *Governmental Activities*, such as general government, public safety, public services, and sanitation. Property taxes, sales taxes, charges for services and grants finance most of these activities. The City's enterprise revenues are reflected as *Business-type Activities*.

## Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant *funds* – not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The City council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following kinds of funds:

- *Governmental funds* – Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.
- *Proprietary funds* – The City charges customers for the services it provides, whether to outside customers or to other units within the city. These services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds (a component of proprietary funds) are identical to the business type activities that are reported in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary funds.

*Fiduciary funds* – The City is the trustee, or fiduciary, for certain funds. It is also responsible for other assets that – because of a trust arrangement – can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities for the city's government-wide financial statements because the City cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

**Net position.** The City’s combined net position was 11.1 million at September 30, 2021. (See Table A-1).

**Table A-1**  
**City of Groesbeck's Net Position**

	<u>2021</u>	<u>2020</u>	<u>Total Percentage Change Sept. 2021 - Sept. 2020</u>

<b>Total long term Liabilities</b>	<b>5,040,727</b>	<b>5,593,541</b>	<b>(10)</b>
Deferred inflows of resources	335,382	293,367	14
Net Position:			
Net Investment in Capital Assets	7,132,068	6,971,217	2
Restricted	1,126,778	984,246	14
Unrestricted	2,821,787	1,832,908	54
<b>Total Net Position</b>	<b>11,080,633</b>	<b>9,788,371</b>	<b>\$ 13</b>

As of September 30, 2021, the City has \$1,126,778 in restricted net position that represents requirements for debt service. The \$2,821,787 of unrestricted net position represents resources to be available to fund the programs of the City next year.

**Changes in net position** – The City’s total revenues were \$6,221,962. A significant portion, 36 percent, of the City’s revenue comes from taxes, while 54 percent relates to charges for services.

The total cost of all programs and services was \$4,929,700, with 47 percent of these costs being for governmental activities.

**Table A-2**  
**Changes in City of Groesbeck's Net Position**

Uses and Transfers	1,292,262	788,548	63.88
	-	-	-
Transfers In (Out)	-	-	
<b>Increase in Net Position</b>	<b>1,292,262</b>	<b>788,548</b>	<b>63.88</b>

Table A-3 presents the cost of each of the City's largest functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

The cost of all *governmental activities* this year was 2.950 million.

However, the amount that our taxpayers paid for these activities through property taxes was only \$985 thousand. Some of the cost was paid by those who directly benefited from the programs.

**Table A-3**  
**Net Cost of Selected City Functions**

	<b>Total Cost of Services</b>			<b>Net Cost of Services</b>		
	<u>2021</u>	<u>2020</u>	<u>% Change</u>	<u>September 2021</u>	<u>September 2020</u>	<u>% Change</u>
General Government	892,053	772,740	15.44	646,986	557,104	16.13
Public Safety	769,137	808,778	(4.90)	219,284	784,145	(72.04)
Highways and Streets	349,001	352,015	(0.86)	349,001	352,015	(0.86)

## FINANCIAL ANALYSIS OF THE CITY'S FUNDS

### General Fund Budgetary Highlights

Total revenues actually received were \$375,921 more than budgeted, and total expenses were \$5,394 more than budgeted.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

At the end of fiscal year 2021, the City had invested \$25,327,674 in a broad range of capital assets, including land, equipment, buildings, infrastructure and vehicles (See Table A-4). This amount represents a net decrease (including additions and depreciation) of \$(399,149) or 3% over last year.

**Table A-4**  
**City's Capital Assets**

	<b>September 2021</b>	<b>September 2020</b>	<b>Total Percentage Change Sept. 2021 - Sept. 2020</b>
Land	1,000,699	1,000,699	-
Infrastructure	1,438,894	1,344,148	7.05
Buildings and improvements	16,475,929	16,475,929	-
Water and sewer system	2,511,940	2,404,472	4.47
Equipment	3,641,025	3,514,855	3.59
Leased assets	259,187	259,187	-
Totals at historical cost	25,327,674	24,999,290	1.31
Total accumulated depreciation	13,446,606	12,719,073	5.72
Net capital assets	11,881,068	12,280,217	(3.25)

More detailed information about the City's capital assets is presented in the notes to the financial statements.

### Long Term Debt

At year-end the City had \$5.0 million in bonds, leases and notes outstanding as shown in Table A-5. More detailed information about the City's debt is presented in the notes to the financial statements.

**Table A-5  
City's Long Term Debt**

	<b>September 2021</b>	<b>September 2020</b>	<b>Total Change Sept.2021 - Sept. 2020</b>	<b>Percentage</b>
Leases payable	-	-		
Bonds payable	4,749,000	5,309,000		(10.55)
Notes payable	-	-

Net OPEB Liability	129,966	109,515		18.67
	-	-		
Totals bonds & notes payable	5,040,727	5,593,541		(9.88)

**Economic Factors and Next Year's budgets and Rates**

The City's budgetary general fund balance is not expected to change appreciably by the close of fiscal year 2021.

**Contacting the City's Financial Management**

This financial report is to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional information, contact the City of Groesbeck's Business Services Department at P.O. Box 227, Groesbeck, Texas 76672 or phone number 254-729-3293.

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

1. Summary of Significant Accounting Policies

The financial statements of City of Groesbeck (the City) have been prepared in conformity with accounting principles applicable to governmental units which are generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles.

Reporting Entity

The City's basic financial statements include the accounts of all its operations. The City evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the City's reporting entity, as set forth in GASB Statement No. 14, "The Financial Reporting Entity," include whether:

- the organization is legally separate (can sue and be sued in its name)
- the City holds the corporate powers of the organization
- the City appoints a voting majority of the organization's board
- the City is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the City
- there is fiscal dependency by the organization on the City
- the exclusion of the organization would result in misleading or incomplete financial statements

The City also evaluated each legally separate, tax-exempt organization whose resources are used principally to provide support to the City to determine if its omission from the reporting entity would result in financial statements which are misleading or incomplete. GASB Statement No. 14 requires inclusion of such an organization as a component unit when: (1) The economic resources received or held by the organization are entirely or almost entirely for the direct benefit of the City, its component units or its constituents; and (2) The City or its component units is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the organization; and (3) such economic resources are significant to the City.

Based on these criteria, the City has no component units. Additionally, the City is not a component unit of any other reporting entity as defined by the GASB Statement.

Basis of Presentation, Basis of Accounting

Basis of Presentation

Government-wide Statements – The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

1. Summary of Significant Accounting Policies

Basis of Presentation, Basis of Accounting

Basis of Presentation

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The City does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements – The fund financial statements provide information about the City's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

The City reports the following major governmental funds:

General Fund – This is the city's primary operating fund. It accounts for all financial resources of the City except those required to be accounted for in another fund.

Economic Development Fund – The fund accounts for the receipt of dedicated sales tax proceeds and the approved expenditures associated with area economic development.

The City reports the following major enterprise funds:

Utility Fund – This fund is used to account for operations that are financed and operated in a manner similar to private business enterprises, where the costs (expenses, including depreciation) of providing water and sewer services to the general public on a continuing basis are financed through user charges.

In addition, the City reports the following fund types:

Fiduciary funds are reported in the fiduciary fund statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support city programs, these funds are not included in the government-wide statements.

Agency Funds (a fiduciary fund) are used to report activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

1. Summary of Significant Accounting Policies

Basis of Presentation, Basis of Accounting

Measurement Focus, Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Financial Statements – These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual-basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The city does not consider revenues collected after its year-end to be available in the current period. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the City incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the City's policy to use restricted resources first, then unrestricted resources.

Financial Statement Amounts

Cash and Cash Equivalents

For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period.

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

1. Summary of Significant Accounting Policies

Financial Statement Amounts

Property Taxes

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the City is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Inventories

The City records purchases of supplies as expenditures during the year. Year-end adjustments reflect the purchase method of accounting for inventory. Inventories are recorded at cost on a first-in, first-out basis.

Capital Assets

Purchased or constructed capital assets, including infrastructure assets, are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Land	-
Infrastructure	40
Buildings & Improvements	10-40
Water & Sewer Systems	20-50
Equipment & Furniture	3-10

Receivable and Payable Balances

The City believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

Pensions:

For purposes of measuring the net pension liability, pension related deferred outflows and inflows of resources, and pension expense, City specific information about its Fiduciary Net Position in the Texas Municipal Retirement System (TMRS) and additions to/deductions from the City's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the

**CITY OF GROESBECK, TEXAS**  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2021

employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Information regarding the City's Total Pension Liability is obtained from TMRS through a report prepared for the City by the TMRS consulting actuary, Gabriel Roeder Smith & Company, in compliance with Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions.

**Deferred Outflows/Inflows of Resources:**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has the following items that qualify for reporting in this category. • Deferred charges on refunding – A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

- Pension contributions after measurement date – These contributions are deferred and recognized in the following fiscal year.
- Difference in projected and actual earnings on pension assets – This difference is deferred and amortized over a closed five year period.
- Difference in expected and actual pension experience – This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statements element, deferred inflows or resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, this item is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and municipal court fines. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

1. Summary of Significant Accounting Policies
2. Financial Statement Amounts

Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related costs as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single “Transfers” line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single “internal Balances” line of the government-wide statement of net assets.

Fund Equity

The City implemented GASB Statement No. 54 during the year ending September 30, 2013. GASB Statement No. 54 requires analysis and presentation of fund balance in five categories. The new fund balance categories are:

- *Non-spendable* – Includes items that are not in a spendable form because they are either legally or contractually required to be maintained intact.
- *Restricted* – Includes items that are restricted by external creditors, grantors, or contributors, or restricted by legal constitutional provisions.
- *Committed* – Includes items committed by the City Council, by resolution of the Council. Commitments may be modified or rescinded by similar resolution.
- *Assigned* – Includes items assigned by specific uses, authorized by the City Manager and/or finance director.
- *Unassigned* – This is the residual classification used for those balances not assigned to another category in the General Fund. Deficit fund balance in other governmental funds are also presented as unassigned.

When both restricted and unrestricted resources are available for use, it is the City’s policy to use restricted resources first, then unrestricted resources as they are needed. The order of spending available resources is as follows: restricted, committed, assigned, and unassigned.

The following detail of fund balances by classification is shown for governmental funds.

	General Fund	Economic Development Fund	Other Governmental Funds	Total Governmental Funds

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, expenditures, expenses, and other disclosures. Accordingly, actual results could differ from those estimates.

Budgetary Data

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to the beginning of the fiscal year, the City prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the City Council is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must have been given.
3. Prior to the start of the fiscal year, the budget is legally enacted through passage of an ordinance by the City Council.

Once a budget is approved, it can be amended only by approval of a majority of the members of the City Council. As required by law, such amendments are made before the fact, are reflected in the official minutes of the City Council and are not made after fiscal year end. During the year, the budget was amended as necessary. All budget appropriations lapse at year end.

Reclassifications

Certain reclassifications have been made to the 2020 information to conform it to the 2020 presentation.

2. Compliance and Accountability

Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

<u>Violation</u>	<u>Action Taken</u>
None Reported	Not Applicable

Deficit Fund Balance or Fund Net Position of Individual funds

Following are funds having deficit fund balances or fund net position at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>	<u>Remarks</u>
None Reported	Not Applicable	Not Applicable

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

3. Deposits and Investments

The City’s funds are required to be deposited and invested under the terms of a depository contract. The depository bank pledges securities in an amount sufficient to protect City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank’s dollar amount of Federal Deposit Insurance Corporation (“FDIC”) insurance.

Cash Deposits

At September 30, 2021, the carrying amount of the City’s deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$2,928,665 and the bank balance was \$2,928,665. The City’s cash deposits at September 30, 2021 and during the year ended September 30, 2021 were entirely covered by FDIC insurance or by pledged collateral held by the City’s agent bank in the City’s name.

Investments

The City is required by Government Code chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must be written; primarily emphasize safety of principal and liquidity; address investment diversification, yield, and maturity and the quality and capability of investment and management, and include a list of the types of authorized investments in which the investing entity’s funds may be invested; and the maximum allowable stated maturity of any individual investment owned by the entity.

The Public Funds Investment Act (Act) requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the general purpose financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the City adhered to the requirements of the Act. Additionally, investment practices of the City were in accordance with local policies.

The Act determines the types of investment which are allowable for the City. These include with certain restrictions, (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers applications, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds.

The City’s investments at September 30, 2021 are shown below:

<u>Investment</u>	<u>Maturity</u>	<u>Reported Amount</u>	<u>Fair Value</u>
		\$ -	\$ -
		-	-
Citizens State Bank	Various	\$ 230,503	\$ 230,503
Logic	Various	653,942	653,942
		<u>\$ 884,445</u>	<u>\$ 884,445</u>
Total Investments		<u>\$ 884,445</u>	<u>\$ 884,445</u>

Analysis of Specific Deposit and Investment Risk

GASB Statement No. 40 requires a determination as to whether the City was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

3. Deposits and Investments

Analysis of Specific Deposit and Investment Risk

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the City was not significantly exposed to credit risk.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the city's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the city's name.

At year end, the City was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the City was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the City was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the City was not exposed to foreign currency risk.

Investment Accounting Policy

The City's general policy is to report money market investments and short-term participating interest-bearing investment contracts at amortized cost and to report nonparticipating interest-bearing investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with the market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-bearing investment contracts.

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

3. Deposits and Investments

Public Funds Investments Pools

Public funds investment pools in Texas (Pools) are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the Act), chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: (1) have an advisory board composed of participants in the pool and other persons who do not have business relationships with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAA- or an equivalent rating by at least one nationally recognized rating service; and (3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

The City's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

4. Capital Assets

Prior Year Defeasance of Bonds

During the year ended March 31, 2011, the City defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds were not included in the City's financial statements. Furthermore, as of March 31, 2013, none of the bonds considered defeased were still outstanding.

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year Ended September 30, 2021**

8. Risk Management

The City is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2013, the City obtained general liability coverage at a cost that is considered to be economically justifiable by joining together with other governmental entities in the State as a member of the Texas Municipal League Intergovernmental Risk Pool (TML). TML is a self-funded pool operating as a common risk management and insurance program. The City pays an annual premium to TML for its excess risk insurance coverage. The agreement for the formation of TML provides that TML will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of acceptable risk levels; however, each category of coverage has its own level of reinsurance. The City continues to carry commercial insurance for other risks of loss. There were no significant reductions in commercial insurance coverage in the past fiscal year and settled claims resulting from these risks have not exceeded coverage in any of the past three fiscal years.

9. Pension Plan

Plan Description

The City of Groesbeck participates as one of 860 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual report (CAFR) that can be obtained at [www.tmrs.com](http://www.tmrs.com).

All eligible employees of the city are required to participate in TMRS.

B. Benefits Provided

TMRS provides retirement, disability and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24 or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Employees covered by benefit terms.

At the December 31, 2020 valuation and measurement date, the following employees were covered by the benefit terms.

Inactive employees or beneficiaries currently receiving benefits	16
Inactive employees entitled to but not yet receiving benefits	19
Active employees	<u>31</u>
Total	66

**CITY OF GROESBECK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**

**III. DETAILED NOTES ON ALL FUNDS (Continued)**

**I. PENSION PLAN (Continued)**

C. Contributions

The contribution rate for the employees in TMRS is 5%, 6% and 7% of employee gross earnings, and the City matching percentages are either 100%, 150% or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is annually determined by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Groesbeck were required to contribute 5% of their annual gross earnings during the fiscal year. The contribution rates for the City of Groesbeck were 5% and 5% in calendar years 2021 and 2020 respectively. The city's contributions to TMRS for the year ended September 30, 2021 were \$65,252, and were equal to the required contributions.

D. Net Pension Liability

The city's Net Pension Liability (NPL) was measured as of December 31, 2020, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.5% per year

Overall payroll growth 3.5% per year

Investment Rate of Return 6.75% net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

**CITY OF GROESBECK, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS (Continued)**

**III. DETAILED NOTES ON ALL FUNDS (Continued)**

**I. PENSION PLAN (Continued)**

Actuarial assumptions used in the December 31, 2020, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2010 through December 31, 2015, first used in the December 31, 2016 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation.

The long-term expected rate of return on pension plan investments is 6.75%. The pension plan’s policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	17.5%	4.80%
International Equity	17.5%	6.05%
Core Fixed Income	30.0%	1.50%
Non-Core Fixed Income	10.0%	3.50%
Real Return	5.0%	1.75%
Real Estate	10.0%	5.25%
Absolute Return	5.0%	4.25%
Private Equity	5.0%	8.50%
Total	100.0%	

**Discount Rate**

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan’s Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

2019 0.03% (city to provide) (city to provide)

2020 0.04% (city to provide) (city to provide)

*The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.*

*The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB.*

*The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.*

*The City's contributions to the TMRS SDBF for the years ended 2020, 2019 and 2018 were 3%, 3%, and 3%, respectively, which equaled the required contributions each year.*

Net Other Post Employment Benefits Liability.

Actuarial Assumptions

Actuarial assumptions were developed from the actuarial investigation of the experience of TMRS over the four year period from December 31, 2010 to December 31, 2014. These assumptions were adopted in 2015 and first used in the December 31, 2015 valuation.

All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.

The Mortality Experience Investigation Study covering 2009 through 2011 is used as the basis for the post-retirement mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs). Mortality Rates for service employees uses the RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis with scale BB to account for future mortality improvements subject to the 3% floor.

Inflation	2.50% per year

Changes in assumption or other inputs	15,671
Benefit payments	(653)
Net changes	20,451
Total OPEB Liability – end of year	\$ 129,966
Total OPEB Liability as a Percentage of Covered Payroll	9.96%

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, calculated using the current discount rate of 2.75% as well as what the City’s total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.75%) or -1 percentage point higher (4.75%) than the current rate. Because the SDBF is considered an unfunded trust, the relevant discount rate to calculate the total OPEB liability is based on the Fidelity Index’s 20 year Municipal GO AA Index.

	1% Decrease in Discount Rate (2.31%)	1% Increase in Discount Rate (3.31%)	Discount Rate (4.31%)

**Other Information**

Due to the SDBF being considered an unfunded OPEB plan, benefit payments are treated as being equal to the employer’s yearly contributions for retirees. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits. In order to determine the retiree portion of the City’s Supplemental Death Benefit Plan contributions (that which is considered OPEB), the City should perform the following calculation:  
Total covered payroll \* retiree Portion of SDB Contribution (Rate)

**CITY OF GROESBECK, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
For the Year Ended September 30, 2021

10. Health Care Coverage

During the year ended September 30, 2020, employees of the City were covered by a health insurance plan (the Plan). The city paid premiums of \$460 per month per employee to the Plan. All premiums were paid to a third party administrator, acting on behalf of the licensed insurer. The Plan was authorized by State statute chapter 172 and was documented by contractual agreement.

11. Restricted Assets

At September 30, 2021, the following cash and investments are classified as restricted on the Balance Sheets of the Governmental Funds and Proprietary Fund:

	Cash and Cash Equivalents	Texpool	Texstar	Logic	Total
Water Deposits	\$ -	\$ -	\$ -	\$ -	\$ -
Construction	-	-	-	-	-
Debt retirement	527,580	-	-	-	527,580
<b>Total</b>	<b>\$ 527,580</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 527,580</b>

12. Accounts Receivable

General Fund accounts receivable consists substantially of ad valorem tax receivables of \$134,164 amounts due to the City for sales tax of \$88,544, due from other governmental agencies for franchise fees, accounts receivables are \$100,250 for a net of \$322,958.

Economic Development Fund receivable consists of \$ 88,693 due from a company relating to the sale of City property that was financed by the City.

Proprietary fund receivables consist substantially of \$674,165 due to the City for water and sewer services, less an allowance for uncollectible accounts of \$315,110 for a net of \$359,055.

13. Commitments and Contingencies

Contingencies

The city participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the City has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the City, there are not significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

14. Subsequent Events

No subsequent of material audit significance noted.

## Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Mayor & City Council  
City of Groesbeck, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Groesbeck, Texas, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City of Groesbeck, Texas' basic financial statements, and have issued our report thereon dated February 10, 2022.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Groesbeck, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Groesbeck, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Groesbeck, Texas' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Groesbeck, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
